

HOW TO ACCESS THE PARENT POWERSCHOOL PORTAL

Step ONE: Make sure you have the parent/guardian identification password and not your child's password. If you are unable to log-in with your password, contact Mark Chaplow at chaplom@gowcs.net or 517 655-4668 X6650.

Step TWO: Once you are logged into PowerSchool, GRADES and ATTENDANCE.

Step THREE: For specific information on assignments, click on the GRADE itself. A screen will appear that lists the assignments for that class. (Do not click on the calendar option for this, as it is not a live link.)

NOTE: Each building has its own deadlines for teachers when posting student information. Please check with the building office if you are not aware of these deadlines. If you experience difficulty in accessing student information, please contact Mark Chaplow at the email or phone listed above.
