

**Explorer Elementary  
School Improvement Plan  
2024 - 2026**

**MATH GOAL:** All students will reach their NWEA individual growth goal in mathematics by June of 2027

Supporting Activities:

1. Use classroom and NWEA data to inform instruction and provide individualized support and interventions
2. Use MAP Accelerator to enhance individualized math learning
3. Teachers will use evidence based instructional strategies that engage learners and promote growth
4. Teachers will engage in TLTs to support best practice instruction
5. A quality, evidenced based math program will be identified through research and piloting
6. Professional development will be offered to support implementation of a new core math program

Evaluation Metric(s):

1. 100% of students will reach their growth target as measured by NWEA

**Reading GOAL:** All students will reach their NWEA individual growth goal in reading by June of 2027

Supporting Activities:

1. Use classroom and NWEA data to inform instruction and provide individualized support and interventions
2. Teachers will use evidence based instructional strategies that engage learners and promote growth
3. Teachers will engage in TLTs to support best practice instruction

Evaluation Metric(s):

1. 100% of students will reach their growth target as measured by NWEA

**Writing Goal:** All classroom teachers will achieve interrater reliability for common writing rubrics by June of 2027

Supporting Activities:

1. Grade level teams will develop and update curriculum maps to sequence writing instruction and align the core program with goals and standards
2. Teachers will participate in writing calibration to promote effective writing assessment

Evaluation Metric(s):

1. Interrater reliability on common writing assessments

**SOCIAL AND EMOTIONAL HEALTH GOAL:** Social and emotional learning (SEL), mental health, and behavioral supports will be provided to assist students and staff by June 2027

Supporting Activities:

1. All students will engage in social emotional lessons
2. Tiered behavioral supports and interventions will be provided
3. Professional learning will be provided on *Conscious Discipline*
4. An evidence based SEL program will be identified through research and piloting
5. Professional development will be offered to support implementation of SEL
6. Wellness activities and resources will be integrated into the work setting to support staff

Evaluation Metric(s):

1. Staff survey regarding utilization and impact of strategies from *Conscious Discipline*
2. Student surveys
