

Paige Paulsen
Athletic Director
Williamston Community Schools

6/30/20

Hornet Families,

The athletic department is excited to announce that we will be moving our registration process for sports to an online platform. This will allow you to complete all athletic documents needed for the 2020/2021 school year online. Signature pages, physicals, emergency contact, and athletic registration fees will all be available through this process. We have picked a system that is already used by our department for scheduling and our athletic website. The website site is HIPAA and FERPA compliant.

- For 2020/2021 the MHSAA has allowed a physical dated from the previous year to be accepted for the current year. A MHSAA health questionnaire will be required. The health questionnaire will be part of the online registration process.

When you and your child are creating an account, please make sure all information is as accurate as possible. There is a messaging service integrated with the system that will allow the athletic department and coaches to send information to parents and students. The information will be sent to you via text message or email depending on your preference.

Included with this letter is information and a help guide to start this process. Please read these first as it will walk you through the process. Please contact me with any questions.

GO HORNETS!!!!!!
